

December 2, 2019

Dear Parent(s):

Austin Elementary College and Career Readiness Day is fast approaching. It has been scheduled for **March 6, 2020** from **8am-10am**. The purpose for this special career day is to provide our students with the opportunity to learn about the many career paths including STEM careers.

We are in need of enthusiastic and dynamic professionals that will share the intricacies of their occupation with eager young people. The goal of this event is to have each career pathway represented and to match each career with the units and skills the students are studying and learning about.

Selections will be based on your career and matched with the appropriate grade level and what the class is studying. Therefore, please be mindful that you may not be assigned to your child's class. If you are interested in sharing your occupation/career with our students, please complete the form below and return it to your child's teacher or Dr. Norris-Brown, Counselor by **Monday, December 16, 2019**.

You may contact Dr. Norris-Brown at 678-874-8103 or email candice_norris-brown@dekalbschools.ga.org with any questions or concerns. We look forward to hearing from you!

Sincerely,

Dr. Norris-Brown
Counselor
